

HP 1920

Serial Console

- 38400 baud
- 8 data bits
- 1 stop bit
- no parity

all command mode

There are only a couple command available by default that are useful to set up access to the web interface. But you can enable all - command mode using:

```
_cmdline-mode on
```

The required password is:

```
Jinhua1920unauthorized
```
