

mine Keyboard Layout on NixOS unstable

[mine](#) is an optimized german keyboard layout.

Manual per user install

```
mkdir -p ~/.config/xkb/symbols
curl https://dl.neo-layout.org/custom_mine_2.39 >
~/.config/xkb/symbols/custom
```

Add keyboard layout:

```
GNOME Settings > Keyboard > Input Sources > Add Input Source > Other > A
user-defined custom Layout > Add
```

Choose keyboard layout with the drop-down menu in the top right of the GNOME Shell status bar.
