

Planet VC-231G VDSL2 Modem

The Planet VC-231G VDSL2 modem is a dumb bridge modem that can be configured to CO mode and CPE mode via some dip switches.

Supported VDSL standards

- ITU-T G.993.1 VDSL
- ITU-T G.997.1
- ITU-T G.993.2 VDSL2 (Profile 17a/30a support)
- ITU-T G.993.5 G.vectoring
- ITU-T G.998
- G.INP

CO mode

Set the most left dip switch to the down position.

The Planet VC-231G VDSL2 mode works with Deutsche Telekom DSLAMs up to 100Mb/s without any issues.
